

→ on a Camping Trip

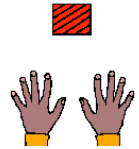

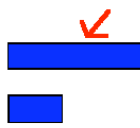

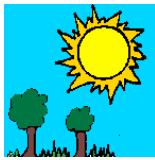

Summertime is the season when families

spend more time outside. The weather is warm,

&

and the days are long. A family might want

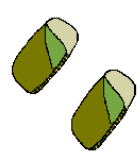

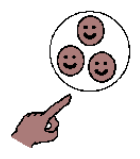

to go camping.

1

One family might camp in tents.

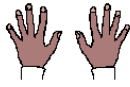

They would sleep in sleeping bags in the

tent, cook their food over a campfire, wash

their

hands

in

a cold

stream,

and

use

an outhouse.

Another family might

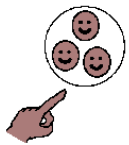

camp

in

a camper.

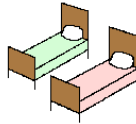

They would

sleep

in

beds,

cook

on

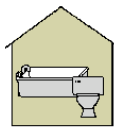

a

stove,

and

use a bathroom

in

the camper.

2

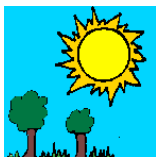

Both families would

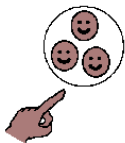

enjoy nature

and

the outdoors.

They could

hike,

wade

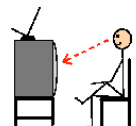

in

a

stream,

watch

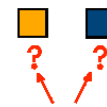

birds

and

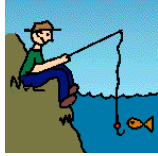

wildlife,

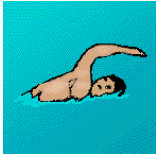

or

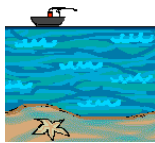

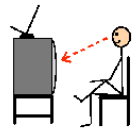

go

fishing. If the family camped at a beach, they could

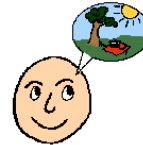

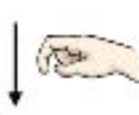

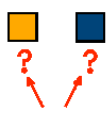

swim in the ocean, hunt for seashells, and

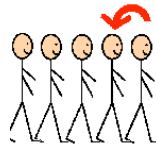

watch the sea birds dive for food.

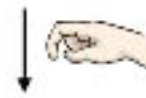

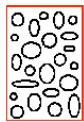

Whether a family camps in a tent

or in a camper they must remember to

bring supplies. On the next page are pictures

of many things. Some of the things are needed

on a camping trip. Find all the things

that

you

think

you

would

take

on

a

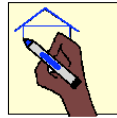

camping

trip

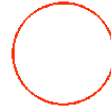

and

draw

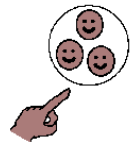

a

circle

around

them.
