

 there is  no  sidewalk,  walk  on  the ground

  beside the street.

 Never  run  into the street.  There are  

 cars  driving  on  the streets,  and  you  must

 always be  very  careful to  watch for them.

 If  you are walking with a friend,  your 

 mother,  or  someone else,  hold  hands  when

 you  stop  at the corner.  Look  to  your  right.

Look to your left. Look again.

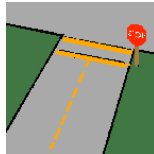

Look and listen for cars. Wait for

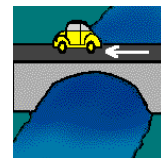

moving cars to drive past you, or wait

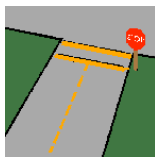

until they stop. When the cars stop, it

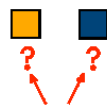

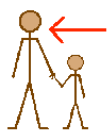

is OK to cross the street.

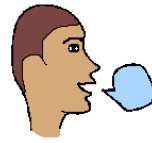

A crossing guard may help you cross

the street to the school. The crossing guard may

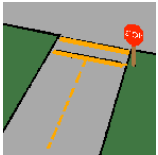

be an adult, or it may be an older student.

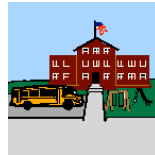

The crossing guard will tell you to wait. Then

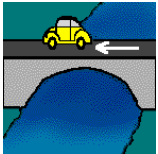

the crossing guard will walk to the middle of the

street holding a STOP sign. The drivers will stop

so that you and other school children can

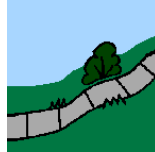

cross safely.

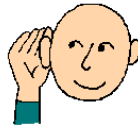

Be a safe walker!

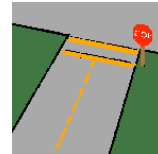

If you

stay on the sidewalk

look and listen for cars

hold hands when you cross the street

wait for the crossing guard

you will be a safe walker!
