

My Birthday Party

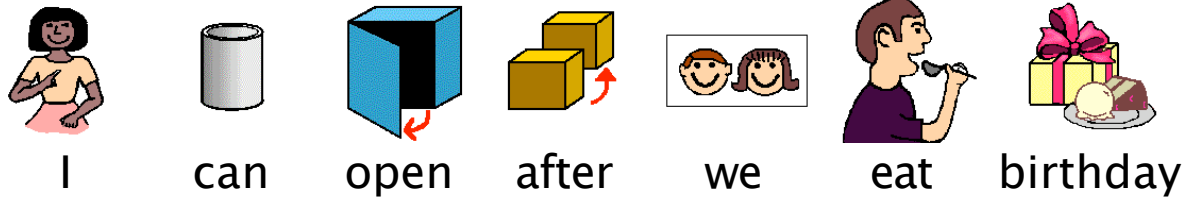

I will have a birthday party. Children

will come to my party. They will say, "Happy

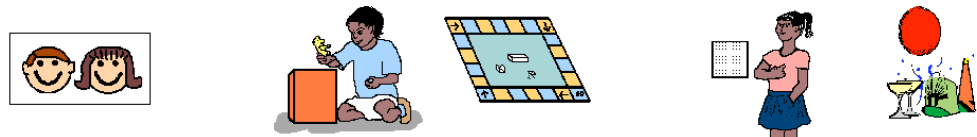

Birthday" to me. They will bring presents that

I can open after we eat birthday

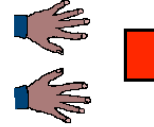

cake.

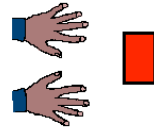

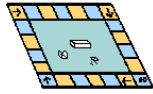

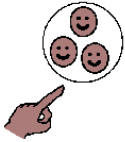

We will play games at my party.

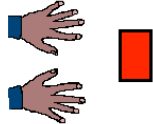

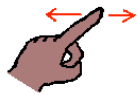

I will take turns and let my friends

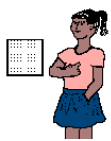

play, too. Some of the children will get prizes

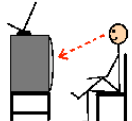

if they win a game. I may get a prize.

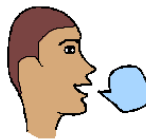

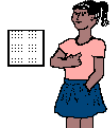

If I do not get a prize, that will be OK.

My friends will have fun. I will feel

happy watching them have fun at my party.

When my mother tells me, I

will sit at the table. Everyone will sit down.

All the children will sing Happy Birthday to

me.

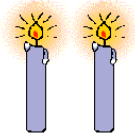

I

will blow

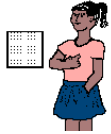

out

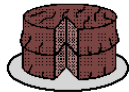

the candles

on

my

cake.

Everyone

will clap.

We

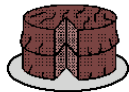

will

all

eat

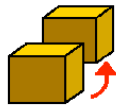

cake

and

ice cream.

After

we

have

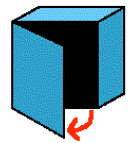

eaten,

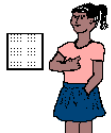

I

will

open

my

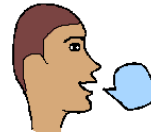

presents.

I

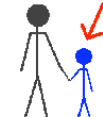

will

tell

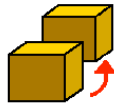

each

child

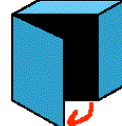

"thank you"

after

I

open

their

gift.

The

presents are mine,

but

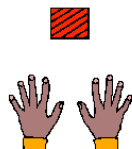

some

of the children

may

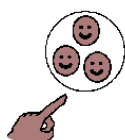

want

to

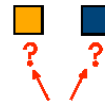

look

at

them

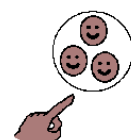

or

play

with

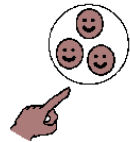

them.

I

will

let

them

look

at

my

presents.

When

it

is

time

for

everyone

to

go

home,

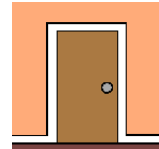

I

will

open

the

door

&

for

them

and

thank

them

for

coming

and

&

for

their

presents.

I

will

feel

happy

because

we

had

such

a

good

time.
