

Leave Poison Alone

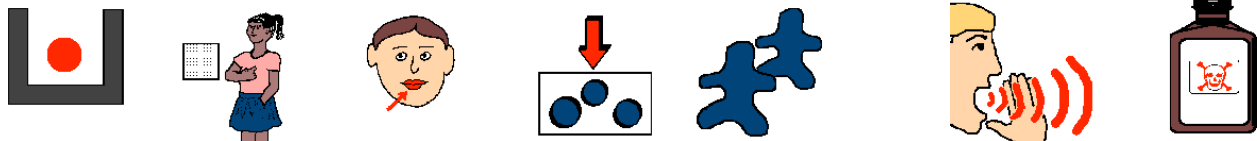

There are many good things for me to

eat and drink in my house. But there

are some things that I should never put

in my mouth. These things are called POISON.

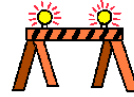

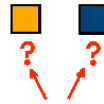

Poison is very bad for my body.

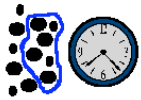

Poison comes in bottles. Poison comes

in boxes. Poison comes in bags. Sometimes

Poison has WARNING or DANGER on it.

Sometimes it might have a skull and crossbones

on it.

Some things that might be poison are:

laundry detergent

paint

medicine

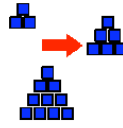

cleaning supplies

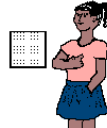

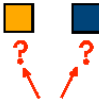

gasoline

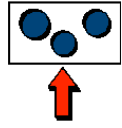

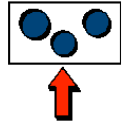

bug spray

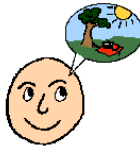

There are many more things that could hurt

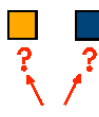

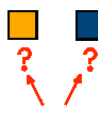

me if I ate them. My mom or dad

will show me those things in my house.

I will try to remember to ask my mom

or dad if it is OK to eat or drink

something new. I will be safe.
